CREATE OPEN SOURCE GARDENS

Welcome to your starter kit and thank you very much for participating in the creation of an Open Source Garden.

In your package you find a tasty selection of officially licensed Open Source Seeds:
Paprika "Black Heart",
Tomato „Sunviva",
Tomato "Vivagrande",
Tomato "Vivaroma" and
Sweetcorn "Lisanco"

Enjoy your first Open Source Gardening season and *tell us about it!*

Be part of our campaign and help to connect us online.
Take pictures of your plants or share your best tips and tricks with us!

We like to *connect via Open Source Gardens.*

CONNECT THE GARDENS

Share your stories and pictures in your favorite communication channels. Use the hashtags
#OpenSourceGarden
#OpenSourceSeeds and
#ConnectingGardens

Also notify our accounts so we can connect easily

GROW THE INTERNET OF GARDENS

Connect us and our gardens online! Show your garden on our map. This way we see and show how many gardens we are.
